FYI

George, there is a Wilcox prebriefing today at 2:00 PM here in the 10th floor. Not directly related to the news article, but there is a resident that reported a child with lead blood level above 5 and EPAs OSC are conducting sampling on-site.

Hello,

I saw a teaser about this story for the 5:00 pm news last night so I watched it from home. The story ran at 5:45 pm, but you can get the transcript and the entire news story at the web site.

Investigator with Erin Brockovich visits Bristow with FOX23

"The best time to plant a tree was twenty years ago. The second best time is now." — Anonymous

Diane's note: Winter is a good time to plant trees, shrubs, and native perennials. Bare

root trees can be planted any time during winter until they leaf out. Oklahoma Arbor Week, the last full week in March, marks the end of tree and shrub planting season in Oklahoma.
